

Emissions Analyzer 5-Gas, Testo 350XL

Emissions Analyzer

The Testo350XL gas analyzer has excellent sensor accuracy and features state of the art Low NO_x and Low CO sensors. The Testo 350XL's advanced NDIR technology offers wide range CO₂ measurements and its unique dilution system provides the widest CO testing and longest sensor life. Another standout feature of the Testo 350XL is its industry leading continuous temperature compensation and control.

Emissions Analyzer, 5-gas, Testo350XL, Engine Kit with DynPro Interface

- Provides compliance level accuracy and extreme flexibility
- Integrated sample dilution system for extended testing ranges & sensor protection
- Includes: Dilution System, CO Rinse, Purge Valve, Chiller, Control unit, Control Cable, Probe Adapter, transport/storage case, 20 particulate filters, 6 rolls of paper, 13 in (330 mm)/2000 °F (1093 °C) probe with teflon hose, Bluetooth, Certificate of Calibration.
- Measurement Range:
 - O₂: 0 - 25%
 - CO: 0 - 10000 PPM
 - NO: 0 - 3000 PPM
 - NO₂: 0 - 500 PPM
 - SO₂: 0 - 5000 PPM
