

Toughpad / Towing Dynamometer

Toughpad dimensions are 10.6 x 7.4 x 0.8 in. (269 x 188 x 20 mm)

For Towing Dynamometer Applications the Toughpad is the standard user interface for system operation. The wireless Toughpad provides complete control of the system right from the vehicle. This rugged and durable Toughpad is designed for harsh environments, able to withstand rain, sand, vibrations, drops, even

extreme hot or cold temperatures. Other key features include: glove-sensitive touchscreen, long battery life, lightweight and compact design. The Toughpad's daylight-readable display makes for easy use of the towing dyno instrumentation system.

Everything you need to succeed
