

Pressure Channel Hose Kit / Instrumentation

Low Temperature Pressure Channel Hose Kit

High Temperature Pressure Channel Hose Kit

The Pressure Channel Hose Kit compliments Taylor's DynPro₂ Data Acquisition and Control System. Available hose types include:

Low temperature hoses

Polymeric core tube, fiber reinforcement and abrasion-resistant black urethane cover

High temperature hoses

Stainless steel and Type 2 silicone rubber composite sleeve

Refer to the chart below for hose types, lengths and quantities available:

Hose Type	Hose Length			Quantity
High temperature	15 ft (4.57 m)	25 ft (7.62 m)	50 ft (15.2 m)	8
Low and high temperature	15 ft (4.57 m)	25 ft (7.62 m)	50 ft (15.2 m)	6 low, 2 high

Everything you need to succeed
